

# Custom content category version notes

Last Modified on 12/27/2023 1:15 pm EST

For each version of a custom content category, you can also add Version Notes.

This field is a free-form text field. You can use it to add notes about the content, what's changed between versions, or provide editorial feedback to other content authors in the version Note field. Version Notes are only visible in the editor:

**Active Version:** 1.00

**All Versions:**  

1.00 PUBLISHED VIEWING

Create a new version

**Version Note:**

Screenshots used are from QA environment; may want to update with live screenshots from representative text. -KM

Sample Version Note

These notes are tied to the particular version, so you'll see different notes for each version. The text field can hold a large amount of text, and you can use the scrollbar on the right or drag the lower right corner to view additional notes:

Active Version:

1.00

All Versions:

1.01

READY
