Homepage Merge Codes

Last modified on 07/16/2026 4:43 pm EDT

Here are the available template merge codes for use in **Customize > Style (HTML & CSS) > Custom HTML > Homepage.** These merge codes will only work in the knowledge base homepage; they won't work inside categories or articles.

Homepage merge code	Description
[homepage("**title**")]	The "title" merge code will display whatever text you have in the **Title** field under **Customize > Homepage > Homepage content**. You can change the title there.
[homepage("**body**")]	The "body" merge code will display the content inside the **Custom content** field of the **Homepage** content editor in the left navigation. You can update the content here.
