Remove the homepage welcome text

Last modified on 07/15/2026 4:36 pm EDT

By default, the title of your knowledge base will display above the search bar of your homepage in a "Welcome to...." statement:

You can Change the welcome text on my homepage, but in some cases you might want to remove it entirely. For example, if you add a banner image that has your company name/logo in it already.

To remove that welcome text completely, delete one line of HTML from the Homepage Custom HTML template:

1. Go to **Customize > Style (HTML & CSS)**.
2. In the **Customize HTML, CSS, and JS** section, select **Custom HTML**.
3. Select **Homepage** from the **Select HTML section to edit** dropdown.
4. Delete this line: `<h1 class="hg-article-title xcolor">[homepage("title")]</h1>`. In our default template and the sample below, it's in row 2:

```

```

5. Once you remove that line, your Homepage custom HTML should now look something like this:

```
<div class="ko-homepage-top">
   [template("large-search")]
</div>
<div class="hg-article">
   <div class="hg-article-body">
```

6. Be sure to **Save** your changes once you're done.
