

Remove the homepage welcome text

Last Modified on 07/17/2024 1:35 pm EDT

By default, the title of your knowledge base will display above the search bar of your homepage in a "Welcome to...." statement:

You can [Change the welcome text on my homepage](#), but in some cases you might want to remove it entirely. (For example, if you [add a banner image](#) that has your company name/logo in it already!)

To remove that welcome text completely, delete one line of HTML from the Homepage Custom HTML template:

1. Go to **Settings > Style**.
2. Below the preview pane, be sure **Custom HTML** is selected.
3. In the **Custom HTML** dropdown, select **Homepage**.
4. Delete the line that says `<h1 class="hg-article-title xcolor">[homepage("title")]</h1>` . In our default template and the sample below, it's in row 2:

```
<div class="ko-homepage-top">
  <h1 class="hg-article-title xcolor">[homepage("title")]</h1>
  [template("large-search")]
</div>
<div class="hg-article">
  <div class="hg-article-body">
```

5. You can **Preview Changes** to see the updated look.
6. Your custom HTML should now look something like this, and your title should be gone:

```
<div class="ko-homepage-top">
  [template("large-search")]
</div>
<div class="hg-article">
  <div class="hg-article-body">
```

7. Be sure to **Save** your changes once you're done.
