Make the PDF icon prettier

Last Modified on 12/28/2022 12:25 pm EST

If you're using the Clayton, Classic, or Modern themes, your PDF icon next to article titles might look like this:

URL-based support tools 📄

Last Modified on 06/14/2022 12:02 pm EDT

You can replace it with a Font Awesome icon that will match the other icons next to the article:

URL-based support tools 📄

Last Modified on 06/14/2022 12:02 pm EDT

(The color of the icon will depend on your knowledge base settings.)

To do so:

1. Go to **Settings > Style**.

2. Below the preview pane, be sure **Custom HTML** is selected.

3. From the Custom HTML dropdown, select **Article**.

4. Copy the code below and paste it into the very bottom of the template:

```
<script>
//Update PDF icon so it uses Font Awesome PDF icon
$(function() {
  $('.hg-article-pdf img').replaceWith('<i class="fa fa-file-pdf-o fa-fw"></i>');
});
</script>
```

5. You can **Preview Changes** and use the preview dropdown at the top to see your article with the new icon.

6. Be sure to **Save** your changes.

Here's what the code might look like entered in your custom HTML:

Custom HTML   Article ▾

```html
    <div class="hg-article-footer">
        [template("rating")]
        [template("comments")]
    </div>
</div>

<script>
  //Update PDF icon so it uses Font Awesome PDF icon
  $(function() {
    $('.hg-article-pdf img').replaceWith('<i class="fa fa-file-pdf-o"></i>');
  });
</script>
```
