Feature Requests
- **Bulk add tags to articles in Manage**
- **Updated article links to generate relative links rather than populating the domain**

Bug Fixes
- **Apostrophes and plus symbols in file names were breaking files being displayed in the legacy editor.**
- **Legacy editor was having strange issues with Windows 7 IE11 (recover autosave not working and clicking hyperlinks freezing the browser). Turned out to be another tool we use, and the issue has been solved.**
- **Preview was sometimes displaying errors in Chrome 57.**
