

Default Login HTML

Last Modified on 12/28/2022 12:25 pm EST

This is the default HTML for **Settings > Style > Custom HTML > Login Page**. You can use it for reference or copy/paste it in and resave to return to the original default state.

This is the default html for the Login Page. Default HTML to add a login link back to your Top Navigation is in [Default Top Navigation HTML](#).

```
<div class="container login-container">
  [template("login-page")]
</div>
```
