

View the glossary

Last Modified on 09/10/2025 6:36 pm EDT

The glossary is a default page in every knowledge base. Its permalink is always `/glossary`.

To view the glossary page, select **Glossary** from your table of contents.

You can also navigate directly to it by opening your knowledge base homepage and adding `/glossary` to that URL.

For example, here is our glossary page: <https://support.knowledgeowl.com/help/glossary>
