Feature Requests

- Added select all/none option inside Change Reader Groups
- Bulk edit status now updates date modified so you can bulk edit articles out of Needs Review
- Content list categories now display sub-categories and articles in app order

Bug Fixes

- Single password reader kbs weren't redirecting to requested articles after login.
- Secure file library URLs now work with IP and single password kbs
- Fixed an issue with autosave causing it to appear on many articles when it shouldn't
