## Automatic payments

Automatic, recurring payment options work for both monthly and yearly subscriptions. For this payment type, save your payment details in KnowledgeOwl and we'll automatically charge that method when your next payment is due.

To pay for your subscription automatically, choose one of these payment options:

- Credit card
- Amazon Pay
- PayPal
- Google Pay

## Invoice

If you have a yearly or multiyear subscription at the Business or Enterprise plans, you can choose to pay by invoice, which may include payments by credit card, bank transfer, wire transfer, check, or more.
