Add glossary link to table of contents

Last Modified on 10/30/2025 11:56 am EDT

If you're using the Glossary, choose whether you want to display a link to the Glossary in your table of contents. The link displays with a small book icon beneath the **Home** link:

To add or remove the glossary link in your table of contents:

1. Go to **KB settings > Glossary**. The **Glossary settings** page opens.
2. In the **Display options** section, check the **Table of contents** box to **Show a link to yourglossary page at the top of the table of contents.**
3. **Save.**
