

Add Related Articles

Last Modified on 04/16/2026 2:03 pm EDT

While you can use automatic suggestions for your related articles, for the best control, you'll want to manually add and order them.

The information below varies based on whether you're using our 2026 new editor or old editor.

To figure out which instructions to follow:

1. Open any article for editing.
2. If the lefthand navigation is collapsed and the editor otherwise has a totally white background, follow the **New editor** documentation.
3. If the lefthand navigation is expanded and the top of the editor and the righthand column have a grey background, follow the **Old editor** documentation.

Here are side-by-side examples of the new editor and the old editor:

Add a Related Article in the new article editor

To add a Related Article in the new article editor:

1. Open the article for editing.
2. In the **Other** section of the righthand column, select anywhere in the **Add related articles** text next to **Related articles**:

The **Related articles** modal opens.

3. Type all or part of a name of an article or category you want to add. The modal suggests articles as you type.

4. Select the article or category:

Your browser does not support HTML5 video.

5. Be sure to **Save** the article.

To reorder or remove related articles, follow the instructions in [Reorder or remove Related Articles](#).
