

# Reorder or remove Related Articles

Last Modified on 04/16/2026 2:02 pm EDT

Once you have two or more Related Articles added to an article or category, you can reorder them and remove them.

The information below varies based on whether you're using our 2026 new editor or old editor.

To figure out which instructions to follow:

1. Open any article for editing.
2. If the lefthand navigation is collapsed and the editor otherwise has a totally white background, follow the **New editor** documentation.
3. If the lefthand navigation is expanded and the top of the editor and the righthand column have a grey background, follow the **Old editor** documentation.

Here are side-by-side examples of the new editor and the old editor:

## Try out the new editor

We'd love your feedback on the new editor. To switch to the new editor, open any article for editing and select the **Switch to new editor** link at the top of the editor.
