

Recent revisions list changes

Last Modified on 09/26/2023 12:56 pm EDT

We've made a few small changes to the article revision list and the revision comparison screen:

- Previously, we displayed the article's author. Since authors might remain constant while different authors make edits, we've updated the Revision List and the Revision Comparison screens to show the author who saved the revision.
- We've added the publishing status of the article to the Revision List and Revision Comparison, so you have a more detailed history of when a publishing status was changed.

Note: Because we only recently added the publishing status field to revision tracking, you'll only see publishing status for revisions saved on or after 15 July 2020.
