

More detailed delete confirmations

Last Modified on 12/28/2022 12:24 pm EST

We've made some changes to a lot of our delete confirmation boxes within KnowledgeOwl to give you a bit more visibility into what you're deleting:

- For deletes of 5 or fewer items, we now show a bulleted list of the items selected for deletion

Glossary Term Delete ×

Are you sure you wish to delete the following terms?

- Crepuscular
- Nocturnal

Cancel OK

Sample new delete confirmation of two items

- For deletes of 6+ items, we now show the count of how many items you're deleting

Glossary Term Delete ×

Are you sure you wish to delete the 6 selected terms?

Cancel OK

Sample new delete confirmation of six items

This pattern is now in place when you delete:

- [File Labels](#) (Library > File Labels)
- [Glossary terms](#) (Knowledge Base > Glossary)
- [Readers](#) (Your Account > Readers)
- [Tags](#) (Library > Tags)
- [Users](#) (Your Account > Users)

We also added a delete confirmation to the [Comments](#) delete (Reporting > Comments), since it was instantly deleting the comments before.

Since comments don't have names or titles, we provide a count for all deletes in that confirmation:

Comments Delete

Are you sure you wish to delete the 2 selected comments?

Cancel

OK

Sample comments delete

We hope these changes help prevent accidental deletes and give you a bit more peace of mind as you delete things!
