

Bug fixes for unlocking readers with mixed case emails + HTML in search result article blurbs

Last Modified on 12/28/2022 12:24 pm EST

Here are our latest bug fixes:

- **Unlocking readers with mixed case emails:** If a reader with mixed case email became locked (like LinusOwl@knowledgeowl.com), the unlock function wouldn't actually unlock their account. We've fixed this so that mixed case won't impact unlocking reader accounts.
- **Search result article blurbs with HTML:** When articles begin with script, iframe, or style HTML tags, the article blurbs were stripping out those tags but still showing the HTML between them:

Tags: piano tag1

The piano is an acoustic, stringed musical instrument invented in Italy by Bartolomeo Cristofori around the year 1700 (the exact year is uncertain), in which the strings are struck by felt hammers. It is played using a keyboard, which is a row of ...

Sample article blurb showing code before this fix

We've updated these article blurbs so that all the content within script, iframe, and style HTML tags will be hidden from search result article blurbs.

Note: code inside of pre tags will still display in article blurbs.
