

# New feature: Show glossary terms in search results

Last Modified on 12/28/2022 12:24 pm EST

For those of you using the [Glossary](#), we have a new feature we'd love for you to try out! We're proud to unveil one of our most-requested feature enhancements to the glossary:

We've added a Search Setting to allow you to show glossary terms and their definitions at the top of relevant search results. Here's a quick preview:

## Search results for...

single Search

Total results: 5 Sort by: Relevance

**single**  
A single term, with no additional terms or phrases associated with it. [Glossary](#)

### Refine by Category
