

Delete a custom reader filter

Last Modified on 09/24/2025 12:17 pm EDT

If you no longer need a custom filter, you can delete it. To delete a custom reader filter:

1. Go to **Account > Readers**. The Readers page opens to the **Readers** tab.
2. Open the filter dropdown in the upper left and select the filter you'd like to edit.
3. Select **Edit Filter** next to the dropdown.

Select the custom filter you'd like to delete and select Edit Filter

The filter's details open between the filter dropdown and the readers list.

4. Check the **Delete Filter** checkbox in the lower right.
5. Select **Update Filter** to save your changes and delete the filter.

Check the Delete Filter box and select Update Filter

The filter's removed from the dropdown and from your account.
