

# Content that supports reader group restrictions

Last Modified on 04/28/2026 4:13 pm EDT

You can specify reader group restrictions in:

- [Categories](#)
- [Articles](#)
- [Snippets](#)

You'll see the option to **Restrict Viewing to Reader Groups** (category editor, old article editor); **Restrict to Reader Groups** (snippet editor); or **Read access** (new article editor) in the editor for each of these.
