Edit or remove an article's scheduled publication or archival

Last modified on 08/19/2026 11:30 am EDT

If you've scheduled an article to be published or scheduled an article to be archived, the only way to edit that schedule is to remove it entirely and create a new one.

You might also want to remove the article's schedule completely.

In both situations, you'll first need to remove the existing schedule.

The information below varies based on whether you're using our 2026 new editor or old editor.

To figure out which instructions to follow:

1. Open any article for editing.
2. If the lefthand navigation is collapsed and there's a link near the top of the page to **Switch to old editor**, follow the **New editor** documentation.
3. If the lefthand navigation is expanded and the top of the editor and the righthand column have a heavier grey background, follow the **Old editor** documentation.

Here are side-by-side examples of the new editor and the old editor:

We'd love your feedback on the new editor. To switch to the new editor, open any article for editing and select the **Switch to new editor** link at the top of the editor.
