Choose your font

Last Modified on 01/08/2025 11:44 am EST

The themer comes with a number of fonts built into it. You can also choose to use your own **Custom fonts**.

> **Hosting**
> All built-in fonts are hosted directly by KnowledgeOwl.

If you're using any of the built-in fonts, you can select them using the **Fonts** controls in the lefthand panel of **Customize > Style (HTML & CSS)**:

> The font controls in **Customize > Style (HTML & CSS)**

As you make changes to the font controls, the Preview pane should automatically update so you can get a feel for how the fonts look.

The available Fonts controls are:

1. **Headers:** Sets the font family, font size, and font weight for all header text across your knowledge base. Default is Lato 48 Bold. Changing this font will impact:

   - The **homepage** text/header

   - Headers used in **category panels on your homepage** or **subcategory panels displayed** in category landing pages

   - The **article list** headers

   - Top navigation links

   - Table of contents links

   - Text in the footer

   - The title heading of a **category**

   - The description of a category (on a category landing page, etc.)

   - The title heading of an article

   - Any headings or subheadings used within articles

- The **Related Articles** section

- **Article ratings**

- **Most of the text in the knowledge base Contact Form**

2. **Article Text**: Sets the font family, font size, and font weight for all **article** text in your knowledge base. The default is Lato 16 Normal. Changing this font will impact:

   - **Any text in the body of an article that is not a heading**

   - **The hyperlinks in various article lists (like Popular, New, Updated)**

3. **Font Pairs**: If you don't have brand requirements for using specific fonts and you just want to explore options, you can test out some pre-packaged Font Pairs.

   - **Selecting one of these pairs will automatically update the Headers and Article Text controls with the font pairs.**

4. **Once you've made changes, be sure to Save them!**

We offer the following fonts:
- **Amati SC**
- **Arial**
- **Courier New**
