

Guest presentation on a reader Scavenger Hunt (March 29th)

Last Modified on 02/27/2024 5:52 pm EST

Details for this session:

- **Day:** Wednesday, March 29th
- **Time:** 2:00-2:30pm EDT
- **Topic:** This session was our first-ever guest Wisdom Wednesday! Hope Ackley at [EverService](#) is a knowledge base administrator. She recently set up a KO scavenger hunt for her readers using none other than our very own Linus (the KnowledgeOwl owl used in our logo and elsewhere!). We shared a variety of different Linuses with her, and she's been running the scavenger hunt for about two weeks. She very graciously reported back to us how the project has been going, and we thought it would be cool to have her share this somewhat unorthodox but very fun way to get readers engaging with the knowledge base and exploring its content. (Spoiler: it's called the Knowledge Games. 😊)

Watch this session where Hope gave us some background around the Knowledge Games, how they set it up, and how it's going!
