

## Use the Customize Text tool to change your article template (July 5th)

Last Modified on 11/05/2025 4:57 pm EST

## Details for our next session:

- Day: Wednesday, July 5th
- Time: 2:00-2:30pm EDT
- Topic: We recently added the Article template to the Customize Text tool. This required two unusual changes: we migrated fields from Article Ratings and Comments into Customize Text, and there are a few text strings that require you make some updates to your Customize > Style Custom HTML. This session walks through those changes in more detail, especially how to make the Style Settings updates if you want to customize those particular fields!
