Remove "Made with KnowledgeOwl" statement from footer

Last modified on 09/07/2026 4:17 pm EDT

New knowledge bases created from scratch include a "Made with KnowledgeOwl" statement in the footer, which should look something like this:

In knowledge bases created after September 2026, the copyright line uses two merge codes, and , so the year stays current and the company name comes from **Account > Billing > Billing details > Company**. Older knowledge bases have the year and company name written directly into the HTML. Either way, the steps below work the same.

To remove this statement:

1. Go to **Customize > Style (HTML & CSS)**.
2. In the **Customize HTML, CSS, and JS** section, select **Custom HTML**.
3. Select **Body** from the **Select HTML section to edit** dropdown.
4. The footer text is in rows 6-8:

```
```

5. To delete the "Made with KnowledgeOwl" portion, delete row 7 completely, beginning with `<br>Made with` and ending with `favicon-32px.svg">`. Be sure you don't delete either `</div>` that comes after it!
   Your HTML should now look something like this:

```
<div class="row hg-site-body slideout-new">
   [template("layout")]
 {{snippet.backToTop}}
</div>
<div class="row ko-site-footer text-center xsize">
   <div>Copyright ©  . All rights reserved.
   </div>
</div>
```

6. Be sure to **Save** your changes.
