Change the location of the Ratings section

Last modified on 07/15/2026 4:41 pm EDT

The **Ratings** section displays in the footer of your articles.

If you'd like to move it around:

1. Go to **Customize** > **Style (Custom HTML & CSS)**.
2. In the **Customize HTML, CSS, and JS** section, select **Custom HTML**.
3. Select **Article** from the **Select HTML section to edit** dropdown.
4. The `[template("ratings")]` merge code sets where the ratings section displays. It's usually on or around row 19 of **Article** Custom HTML:

   ```
   ```

5. Move the template merge code where you'd like the Ratings section to appear.
6. Be sure to **Save** your changes.
