If you're just getting started thinking about accessibility, these resources may be a good place to begin:

- [Digital Accessibility Toolkit from the Government of Canada](#): A comprehensive guide to digital inclusion
- [What is Accessibility?](#) (MDN docs): Demystifying accessibility from the web experts
- [BCIT's Knowledge Base - About Web Content Accessibility](#): Practical knowledge you can apply immediately
- [Global Accessibility Awareness Day \(GAAD\)](#): An annual event designed to increase accessibility awareness.

Make it a yearly tradition for your knowledge base, too!
