Set up Owl Intelligence

Last Modified on 08/03/2025 9:19 am EDT

Detailed instructions to turn on Owl Intelligence and set up your account for AI.

Enable Owl Intelligence

Authors with the **Full Account Admin** permission can enable or disable Owl Intelligence for the entire account.

To enable or disable Owl Intelligence:

1. Go to **Account > Owl Intelligence**.

2. Toggle the **Enable** box.

3. *Optional:* Check or uncheck the Owl Intelligence features you want.

4. Select **Save.**

Owl Intelligence is now enabled/disabled for all knowledge bases in your account. You can control which AI features individual authors can use by using **custom author roles**.
