

# Generate articles with style guide

Last Modified on 10/03/2025 10:25 am EDT

You can also apply your style guide when [generating new article content with AI](#):

1. When using the AI article generation feature, look for the **Apply style guide** checkbox.
  2. Check this box before generating content.
  3. Owl Intelligence will create content that follows your style guide, which should reduce the need for later revisions.
