

Change existing URL redirect article to a regular article

Last Modified on 04/22/2026 4:59 pm EDT

Sometimes URL redirects have run their course and you want to convert them to a "regular" article with real content.

The information below varies based on whether you're using our 2026 new editor or old editor.

To figure out which instructions to follow:

1. Open any article for editing.
2. If the lefthand navigation is collapsed and there's a link near the top of the page to **Switch to old editor**, follow the **New editor** documentation.
3. If the lefthand navigation is expanded and the top of the editor and the righthand column have a heavier grey background, follow the **Old editor** documentation.

Here are side-by-side examples of the new editor and the old editor:

Try out the new editor

We'd love your feedback on the new editor. To switch to the new editor, open any article for editing and select the **Switch to new editor** link at the top of the editor.

Old editor

Convert URL redirect article in new article editor

To convert an existing URL redirect article back to a "regular" article in the new article editor:

1. Open the article for editing.
2. Hover over the **Permalink** section and select the triple dot menu that appears there:

3. Select **Remove redirect** from the menu that appears:

4. Be sure to add the actual content you want your article to contain into the editor!
