Does KnowledgeOwl offer EU hosting?

Last modified on 11/02/2026 10:42 am EST

Context

You want to use KnowledgeOwl but you require or prefer your data to be hosted outside of the United Statues.

Resolution

A European-hosted version, KnowledgeOwl EU, is coming soon. To find out when KnowledgeOwl EU launches, join the KnowledgeOwl EU waitlist.

Background

KnowledgeOwl is hosted on Amazon Web Services (AWS) in the United States. Our primary data center is in US East Region 1 (N. Virginia), and we keep daily backups in US West (Oregon). For more about how we host and protect your data, refer to Security and reliability.

If you're working through EU data protection requirements, KnowledgeOwl is GDPR compliant and certified under the Data Privacy Framework. Refer to GDPR and our Data Processing Addendum (DPA) for details.
